He informed me of a plot which he referred to as "The Plot", which he claimed would ultimately kill the FWRP. A while later, Grif asked me to ban him from the FWRP. So... I did. I would've banned him anyways if I saw the beginning of "The Plot".

If ML goes away, I'm gone

Even though I don't rp much anymore (because I have exactly zero time) I plan to in the future (and I have my own revival plot).

ML was the first rp i took seriously and actually took time to plot out and develop characters in

Even tHough it's superficial, it means a lot to me

A'ight, time to throw in a few cents here, even though absolutely none of this concerns me.

Maybe it is time for ML to dial back a little. You do know that Ghost is actually upset that you've basically booted him from leading the FWRP he created, right? Honestly, give the guy a bit of respect.

You wanna talk about despair? Ask Ghost how he really feels.

but that's just an opinion i guess *goes back to sipping panta in the corner* forget i said anything.

@Purple

I do see where you're coming from

But, however, Ghost did give Necro leadership over the FWRP

I'm pretty sure that means he's aware of how inactive he is right now, and that he trusts Necro

Maybe it's somewhat disrespectful, but I personally think Necro did the right thing

I mean

It's not like Ghost can ban Grif from ML, unless we want to wait who-knows-how-long to ban Grif

We can't always wait for Ghost's opinion on stuff like this, especially if it's important

Also, I did ask Ghost about how he felt about it, and he knows that the FWRP needs an active leader

hazedragon475

hey so my take probably ain't relevant to this conversation anymore, but I'm here being picky again.

I wanted to specify the matter of Ghost "bullying" Necro's friend. I know why Necro is so emotional about it, and I saw the effects, but I still think bully is a strong word. What Ghost did was excessive editing for a certain ship that he favored over the ship Necro and that friend wanted. It definitely wasn't a good thing he did, but once that friend started crying he and the other person stopped their editting.

Really, it stopped long ago, and we don't need to keep bringing it up. I still remember the chat about sims where you kept talking about your ship to Ghost. I don't know your real intentions, but to me it felt like you were rubbing it in his face.

So my plea is that you stop reiterating that story

Enchanted, I don't think it was editing Necro is referring to as "bullying"? He said something hurtful on a Chat

But anyways, you're also correct, because it's not important to the issue at hand and I see no reason for it to keep being brought up

I'll just give my say, and this is the last I'll have to say about it:

Yes, I gave Necro leadership. I trusted her to lead this FWRP then and I trust her now. Yes, I acknowledge that I have been inactive.

However, I have not been receiving respect in this area for a long time. Once I went on ML Chat asking for it, and was literally asked if I thought I deserved it.

I did not bully anyone into crying. I did not stop anyone from working together, and did not edit pages to make things seem different. From my point of view, I simply shipped a ship. True, I made a wedding. However, actual events have been twisted to make it seem like I forced certain people to do certain things.

That is a lie. No one ever spoke saying they would like me to stop, and all present seemed happy to be playing along, joining in casually. I thought it was a fun, casual roleplay. One person even helped me design & develop kids for the pairing, though that person instantly turned against me later.

It is true that someone started crying. It is not true that I bullied them into it. They had never expressed discomfort with my actions prior to this, and the instant they made it clear they were uncomfortable I stopped.

This situation has been so severely twisted that honestly I want nothing to do with this or the FWRP.

Ghost, chat mod status is based on how much you contribute to Chat

Which you don't

It's not a measure of respect

And I suppose you forgot about that time on GvE Chat

In which we were debating about said ships

And then you felt the need to lie and insult me for the sake of bringing down the ship

Obviously, it wasn't that big of a deal to you

I guess it doesn't count as bullying, then

What's important is that Ghost gets what he wants, right?
